

2010 ARC SIEGER SHOW

Hosted By: Mile High Rottweiler Club

FCI/ADRK ROTTWEILER TAIL STANDARD

Reproduced with permission of Dr. Manfred Herrmann, ADRK

The FCI Standard for the Rottweiler Tail states that in the natural condition the tail should be level in extension of the upper line and may be hanging if at ease.

Faults for the tail include having the tail set on too high or too low.

Eliminating faults for the tail are any tail with a kink, ring tail, or any strong lateral deviation.

FLASH

The Rottweiler Nation Website will be posting the winners ringside at <http://www.rottweilernation.com/arcsiegerresults.com>

Then go to <http://siegercentral.com/modules/eventResults/> and see the complete results of the show and a fully marked catalog beginning April 28, 2010
